

ITR offers a product line that covers a wide range for all applications. ITR buckets designed and manufactured from High strength abrasion and wear resistant steel provide the best resistance and wear life. Our full range of excavator buckets suit up to 60 tones class machines.

ITR buckets come with extensive additional internal and external plantings to withstand most hostile conditions. Buckets can be fitted with bolt-on edges, teeth and segments, corners and side-shrouds if necessary. Available in any configuration to suit most of your applications and requirements.

For extreme applications, we also manufacture Heavy Duty and Rock buckets. HARDOX super high strength wearable steel, with ITR teeth and adapters maximize product's reliability, excavation performance and economical efficiency. These greatly reduce the time and cost of maintenance thus improving working efficiency.
